

WINDOWS MEDIA COMPONENTS FOR QUICKTIME INSTALLATION INSTRUCTIONS FOR MAC USERS

1. To install the Windows Media Components for QuickTime software, visit <http://www.microsoft.com/en-us/download/details.aspx?id=9442>.
2. Click the Download button.

The screenshot shows the Microsoft Download Center page for 'Windows Media® Components for QuickTime'. The page includes a navigation bar with 'Microsoft', 'Search Download Center', 'bing', 'PRODUCTS', 'STORE', 'DOWNLOADS', 'SUPPORT', and 'United States (English)'. Below the navigation bar, there are links for 'Windows', 'Office', 'Product downloads', 'Download categories', 'Security', and 'Resources'. The main heading is 'Windows Media® Components for QuickTime'. On the left, there are 'Quick links' for 'Overview', 'System requirements', and 'Instructions'. Below that, there is a 'Looking for support?' section with a link to 'Visit the Microsoft Support site now >'. The 'Quick details' section contains a table with the following information:

Version:	2.4.4	Date published:	5/24/2012
Language:	English		
File name	Size		
2.4.4.2\Flip4Mac WMV 2.4.4.2.dmg	25.2 MB		

The 'DOWNLOAD' button in the table is circled in red.

3. You will be prompted to download a file. Save the file to your computer and run the installer once the download completes.
4. Execute the installer and follow the on-screen dialog instructions to complete the installation.
